

HD PRIME

Employees and equipment come in all shapes and sizes. Solve the issue of proper working heights, stability and flexibility for all employees on fixed height tables, benches and counters with the Grand Stands HD PRIME base. Fixed height work surfaces affect efficiency and safety.

Starting at 22.5" from the floor, the electric motor drive has 25.5" of programmable height range. The lifting capacity starts at 500 pounds and can be increased with additional lifting columns.

HD PRIME Standard Features

- 25.5" of programmable height range, starting at 22.5" from the floor
- 500 pounds lifting capacity
- Impact detection
- Leg Cross Bar (3 standard lengths)
